

13-15 June 2017
WTC Rotterdam

9th International Gas Analysis Symposium & Exhibition

Meet the world's leading experts on gas analysis

Registration is open!

Register at www.gasanalysisevent.org

Our biennial event is the best global forum on analysis of gases to become aware of the latest developments and applications in the industry and society.

GAS Analysis 2017 provides you the unique opportunity to:

- meet peers, policy makers, technical staff, analysts, manufacturers, and end-users;
- bring together experts from national and international institutions, world-renowned industry and academia from all over the world;
- present and discuss – cutting edge – analytical developments related to process, energy, and health, safety and environment;
- learn about improving process efficiency, consistency, safety and managing emission control as well as many other key aspects.

For registration and more information

www.gasanalysisevent.org

GAS Analysis 2017 offers you 3 exciting days with:

Symposium

The symposium programme consist of two sessions in parallel, in which 60 experts across the world will give a scientific lecture in one of the following session themes:

- Process industry
- Health, safety and the environment
- Energy supply chain
- Laboratory & process analysis

Exhibition & poster area

The exhibition floor covers over 1 000 m², at which 36 companies will show their newest products and services. During the special poster session with over 30 scientific posters the authors will be delighted to discuss their results with you.

Networking opportunities

The exhibition floor also offers an excellent ambience at (lunch) breaks and the opening drinks to expand your network, as well as our famous social dinner event will do.
