GAS Analysis 2019 offers you 3 exciting days with:

Symposium

The symposium programme consists of two sessions in parallel, in which experts across the world will give scientific lectures on topics such as process industry, health, safety and the environment, energy supply chain and laboratory & process analysis.

Exhibition & poster area

The exhibition covers the large terminal area of the inspiring meeting venue. The exhibition is the perfect place to introduce your innovative products, technologies and services and a great opportunity to meet customers and prospects. During the special scientific poster session the authors will be delighted to discuss their results with you.

Networking opportunities

The exhibition floor also offers an excellent ambience at (lunch) breaks and the opening drinks to expand your network, as well as our famous social dinner event will do.
